

Justin Blair's custom orthotic program will stream line your practice's ordering process by combining your custom orthotics with your diabetic shoe orders. Our quality, hand crafted custom orthotics are available in various material combinations allowing you to accommodate your patient's medical needs and lifestyle. Both shoes and custom orthotics are shipped together in the same package to reduce handling costs.

HOW TO ORDER CUSTOM ORTHOTICS

CUSTOM

STEP 1 Take an impression of your patient's feet using a casting method of your choice. Fill out the Custom Orthotic Program Order Form. Using a supplied prepaid UPS shipping label**, ship the casting along with the top copy of the order form to our lab.

STEP 2 Fax (773) 523-3639 your copy of the order form to Justin Blair & Company for processing. You will receive a confirmation fax letting you know that we have received your order and started the process.

STEP 3 In 2 to 3 weeks*** your custom orthotics and associated footwear will ship to you.

* Starting price - see order form for details

** Shipping is prepaid to and from lab. Labels are available from Justin Blair & Company.

*** Lead time is dependent upon geographical location
